

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): Infant or follow-on formula comprising a source of proteins, a source of lipids, a source of carbohydrates and a probiotic wherein the source of lipids includes at least one LC-PUFA comprises ARA and DHA, the DHA content is between 0.2 and 0.5% of total fatty acids in the lipid source.

Claims 2-4 (canceled):

Claim 5 (currently amended): Formula according to claim 4-1 wherein the ratio of ARA:DHA is between 0.8:1 and 1.2:1.

Claim 6 (previously presented): Formula according to claim 1, wherein the probiotic is selected from the group consisting of a Bifidobacteria and a Lactobacillus.

Claim 7 (original): Formula according to claim 6 wherein the Bifidobacteria is Bifidobacterium longum BB 536.

Claim 8 (original): Formula according to claim 6 wherein the Lactobacillus is Lactobacillus paracasei rhamnosus GG.

Claim 9 (previously presented): Formula according to claim 1 which contains both a Bifidobacterium and a Lactobacillus.

Claim 10 (original): Formula according to claim 9 wherein the Bifidobacteria is Bifidobacterium longum BB 536 and the Lactobacillus is Lactobacillus paracasei rhamnosus GG.

Claim 11 (previously presented): Formula according to claim 1 wherein at least 40% of the proteins are modified sweet whey proteins with no CGMP or reduced CGMP.

Claim 12 (previously presented): Formula according to claim 11 wherein the at least 60% of the proteins are modified sweet whey proteins comprising no CGMP or reduced CGMP.

Claim 13 (previously presented): Formula according to claim 11 wherein the proteins are present in a maximum proportion of 2g/100 kcal.

Claim 14 (currently amended): Method for strengthening natural immune defences of an infant or a baby comprising feeding said infant or baby a formula comprising a source of proteins, a source of lipids, a source of carbohydrates and a probiotic wherein the source of lipids includes at least one LC-PUFA comprises ARA and DHA, the DHA content is between 0.2 and 0.5% of total fatty acids in the lipid source.

Claim 15 (previously presented): Method according to claim 14 wherein the formula provides the complete nutritional needs of the infant or baby.

Claim 16 (currently amended): Method of reducing at least one of flatulence, vomiting, regurgitation and/or morbidity by administering to a baby or infant a composition comprising a source of proteins, a source of lipids, a source of carbohydrates and a probiotic wherein the source of lipids includes at least one LC-PUFA comprises ARA and DHA, the DHA content is between 0.2 and 0.5% of total fatty acids in the lipid source.

Claim 17 (currently amended): Method for promoting healthy mental development in an infant or a baby comprising feeding said infant or baby a formula comprising a source of proteins, a source of lipids, a source of carbohydrates and a probiotic wherein the source of lipids includes at least one LC-PUFA comprises ARA and DHA, the DHA content is between 0.2 and 0.5% of total fatty acids in the lipid source, and wherein at least 40% of the proteins are modified sweet whey proteins with reduced CGMP.

Claim 18 (previously presented): Method according to claim 17 wherein the formula provides the complete nutritional needs of the baby or infant.

Claim 19 (previously presented): Method according to claim 17 wherein the infant is preterm.

Claim 20 (previously presented): Formula according to claim 11 wherein the proteins are present in a proportion of between 1.8 and 1.85 g/100 kcal.

Claim 21 (previously presented): Method according to claim 17 wherein at least 40% of the proteins are modified sweet whey proteins with no CGMP.
